Renjiro Wiroskid Angga

Data & Analytics Intern

Jakarta Utara, DKI Jakarta | +6281315668255 | renjirowiroskidangga@gmail.com | https://www.linkedin.com/in/renjiro-wiroskid-angga-ab4315314/ | https://github.com/RENJIRO23

SUMMARY

Undergraduate student majoring in Computer Science at BINUS University (Semester 5) with a strong interest in Data Analytics and Engineering. Proficient in utilizing tools such as Python, SQL, Tableu, PowerBI, Microsoft Excel, Pentaho through hands-on academic and personal projects. Possess strong analytical, problem-solving, and adaptability skills, eager to leverage academic knowledge into a full-time internship program.

EDUCATION

Bina Nusantara University (BINUS University) — Jakarta, Indonesia *Bachelor of Computer Science* | Sep 2024 – Present (Expected Graduation: May 2028)

- **GPA:** 3.48 / 4.00
- **Relevant Coursework:** Data Mining, Data Analytics, Data Visualization, Data Engineering, Big Data Processing

PROJECTS

Unsupervised Retail Transaction & Return Behavioral Analytics using K-Means | Tools : Python (Pandas, Scikit-Learn, Seaborn) | https://github.com/RENJIRO23/online-retail-customer-segmentation

- Engineered an end-to-end customer segmentation pipeline using RFM (Recency, Frequency, Monetary) metrics and K-Means clustering on over 500,000 rows of transaction data.
- Identified 4 distinct customer behavioral cohorts (Champions, Loyal, At-Risk, Lost) and delivered targeted marketing recommendations to optimize retention strategies and minimize churn risk.

Interactive Sales Performance Dashboard | Tools : Tableau | https://github.com/RENJIRO23/Tableau-Exploratory-Data-Analysis%20 | https://public.tableau.com/app/profile/renjiro.wiroskid.angga/viz/AOLdv/Dashboard1?publish=yes

- Designed an interactive Tableau dashboard to analyze retail sales trends, regional distribution, and product category profit margins.
- Uncovered critical regional sales bottlenecks and high-yielding product opportunities, enabling stakeholders to optimize inventory distribution and streamline strategic planning.

Loan Approval Analysis Dashboard |Tools: Power BI, Power Query, DAX | https://github.com/RENJIRO23/Power-Query-DAX-Operational-Dashboard

- Executed end-to-end data preprocessing and ETL using Power Query to clean, transform, and structure raw loan applicant data into an optimized data model.
- Constructed an interactive BI dashboard with custom DAX risk metrics, identifying key NPL and DTI default drivers to accelerate loan approval turnaround times.

ETL Data Pipeline & Deep Work Disruption Analysis | Tools: Pentaho Spoon, MySQL, Python (Scikit-Learn) | https://github.com/RENJIRO23/deepwork-disruption-predictive-pipeline

- Built an end-to-end ETL pipeline using Pentaho Spoon to extract, clean, and structure raw screen-time logs, platform metrics, and feature-level usage data comprising over 5,000 rows.
- Compared Random Forest and XGBoost models in Python and analyzed feature importance to pinpoint specific social media platforms and features most disruptive to deep-work productivity.

Air Quality Monitoring Big Data Processing | Tools: PySpark, Spark MLlib, Python, Matplotlib | https://github.com/RENJIRO23/Big-Data-Processing

- Architected a distributed PySpark batch processing pipeline on Google Colab to clean and transform OPENAQ PM2.5 big data.
- Deployed a Spark MLlib Random Forest classifier achieving 87% predictive accuracy, uncovering peak rush-hour pollution spikes (3–5 PM) to recommend municipal low-emission zones.

SKILLS

- **Programming & Databases:** Python, C, SQL, MySQL
- **Data Analysis & Machine Learning:** Exploratory Data Analysis (EDA), Feature Engineering, Regression Analysis, Clustering & Segmentation, Predictive Modeling
- **BI & Data Visualization:** Power BI, Tableau, Power Query, DAX, Microsoft Excel
- **Data Engineering & Big Data:** Pentaho Spoon, ETL, PySpark, Spark MLlib, Big Data Processing
- **Tools & Platforms:** Git, GitHub, Jupyter Notebook, Google Colab
- **Languages:** Indonesian (Native), English (Intermediate)
- **Soft Skills:** Problem Solving, Critical Thinking, Teamwork, Adaptability
